SUMMARY

Pursuing a Master's in Quality Management Science at ISI Bangalore (AIR 8), with a B.Sc. (Hons.) in Statistics from St. Xavier's College, Kolkata. Skilled in R, Python, SQL and Minitab, with expertise in probability, inference, and statistical modeling. Passionate about data science, machine learning, and AI-driven decision-making for process optimization and impactful, data-driven solutions.

WORK EXPERIENCE

Research Associate

May 2024-Jan 2025

Guided by Sanjana Ghosh

Performed EDA with time-series plots and t-tests on pumpkin growth parameters; fitted linear models to assess growth trends. Findings linked soil microbial activity with sustainable plant productivity and ecosystem conservation.

Content Creator

Aug 2024-Sept 2024

Cheenta Academy

Designed and developed educational content for statistics, probability, and mathematics courses, making complex concepts accessible and engaging for students. Created and formatted problem sets using LaTeX for accurate and professional presentation.

PROJECTS

CTR Predictive Modeling & Analysis

[Github](#)

Developed a logistic regression model to predict ad-click behavior using user demographics and site activity. Performed EDA to analyze feature distributions, outliers, and multicollinearity, guiding feature selection. Validated model insights with qualitative survey data to improve AI-driven ad targeting and campaign optimization.

Credit Risk Scoring Model

Created a machine learning model to forecast the likelihood of loan default based on borrower and loan attributes. Ensured that credit risk forecasts were interpretable and addressed class imbalance.

EDUCATION

Master in Quality Management Science - Percentage - 92.67%

2025-Present

Indian Statistical Institute, Bangalore

Focus on statistical process control, operations research, multivariate data analysis, machine learning applications, and time-series analysis for data-driven decision-making

Bachelor in Statistics Hons. - CGPA - 8.03

2022-2025

St. Xavier's College (Autonomous), Kolkata

Leveraged a full spectrum of statistical methods—from foundational principles to advanced modeling—to transform complex data into actionable, real-world solutions.

Higher Secondary Examination (CBSE) – Percentage: 97.8%

2022

Aditya Academy Secondary, Barasat

Ranked in the Top 1% nationwide in the CBSE Board examinations.

SKILLS

Hard Skills - R, Python, Structured Query Language (SQL), MiniTab, Data Analysis, Predictive Modeling, Statistical Analysis & Inference, Quality Control, and Operations Research.

Soft Skills - Leadership, Teamwork, Problem-Solving

ACHIEVEMENTS/POSITION OF RESPONSIBILITY

Foundation in Data Science and Programming-CGPA - 8.93 (Indian Institute of Technology, Madras), 2023

JAM Mathematical Statistics - All India Rank - 102

Entrance Exam for ISI MSQMS - All India Rank - 8

Selected for the ICTS-TIFR Summer School for Women in Statistics & Mathematics 2023

GP Birla Awardee for academic excellence, 2023

JBNSTS Senior Scholar for advanced research in science and mathematics, 2022

DST Inspire Scholar (Top 1% in CBSE Class 12 - 97.8%)

Core-Committee Member (Xaverian Academy of Dance & Music)

Aug, 2022- June 2024

Organized and Coordinated cultural events, workshops and performances, ensuring smooth execution and active participation.
